About Quarry

At Miksi we pride ourselves on pioneering new techniques within rug construction and design. Laser engraving on cowhide is a method we have developed over years, and trialed across a wide variety of projects, and here these efforts culminate in the trompe l'oeil effect of Quarry. Cowhides are selected for their uniformity of colour and hair length before being etched with laser lines through the pile, revealing the leather beneath. The Quarry rug is a popular design that embodies Miksi's commitment to both innovation and heritage.
